

SHEHZIBAH ASHRAF

IT Graduate | Cybersecurity & Blockchain Enthusiast

+91 8139802404 | shahzibahashraf627@gmail.com | linkedin.com/in/shehzibah-7a951a32a | github.com/biommo01 | Thrissur, Kerala, India

PROFESSIONAL SUMMARY

Motivated IT graduate with a B.Sc. in Information Technology and certified training in Ethical Hacking and Cyber Security. Developed a decentralized blockchain voting platform on Ethereum using smart contracts, Web3.js, and end-to-end encryption. Proficient in C, C++, Python, and Java with a solid foundation in network security, vulnerability analysis, penetration testing, threat intelligence, and incident response. Seeking an entry-level Cybersecurity Analyst, SOC Analyst, or IT Security role to apply hands-on technical skills in a forward-thinking organization.

TECHNICAL SKILLS

Cybersecurity: Network Security, Penetration Testing, Ethical Hacking, Vulnerability Analysis, Threat Intelligence, Incident Response, Digital Forensics

Blockchain & Web3: Ethereum, Smart Contracts (Solidity), Web3.js, Decentralized Applications (DApps), End-to-End Encryption

Programming: C, C++, Python, Java, HTML

Databases: RDBMS, SQL

Tools: Git, GitHub, Kali Linux (foundational), Wireshark (foundational)

Soft Skills: Analytical Thinking, Problem-Solving, Time Management, Team Collaboration, Continuous Learning

EDUCATION

Bachelor of Science - Information Technology | Nirmala College of Arts and Science | Chalakudy, Kerala | Jan 2023 - Jan 2026

- Relevant coursework: Network Security, Data Structures & Algorithms, Database Management Systems, Operating Systems, Software Engineering
- Capstone Project: Designed and deployed a Blockchain-Based Voting Platform on the Ethereum network

Higher Secondary Certificate (Commerce) | Chentrapinni Higher Secondary School | Thrissur, Kerala | Jan 2021 - Jan 2023

PROJECTS

Blockchain-Based Voting Platform | Academic Project | Solidity, Web3.js, Ethereum | 2025

- Architected a decentralized voting application on Ethereum to eliminate single points of failure and ensure full election transparency.
- Wrote and deployed immutable Solidity smart contracts for secure, tamper-proof ballot execution and vote recording.
- Enforced end-to-end encryption to guarantee complete voter anonymity and integrity of all stored ballot data.
- Developed a Web3.js front-end interface to seamlessly connect client-side users with the blockchain backend for real-time vote verification.

CERTIFICATIONS & TRAINING

Cyber Security Course Completion Certificate | Elewayte | Cert No: CC620241286 | Jun 2024 - Jul 2024

Ethical Hacking Masterclass - Cyber Security Internship Program | Edureka | Jun 2025

WORKSHOPS & SEMINARS

- Data Structures: Stack and Queue Data Structures - Elewayte (Apr 2026)
- Cybersecurity Seminar: Inside the Mind of a Hacker by Kavin Kumar - Elewayte (Oct 2025, ID: 14052023WB3995)
- System Integration: The Future of System Integration with MuleSoft by Robin Sinha - Elewayte (Aug 2024)
- Web Development: Master the Art of Website Creation - Elewayte (Jul 2024)
- Robotics and App Development Workshop - Bonic Education (Oct 2023)

ADDITIONAL INFORMATION

Languages: English (Professional), Malayalam (Native), Hindi (Conversational)

Interests: Emerging Technologies, Digital Music Production, Painting, Analytical Reading
